TRIOSE and MedAssets Sign Multi-Year Contract For Freight Management Services

TRIOSE, Inc. (Reading, PA) announces that it has signed a multi-year agreement with MedAssets Supply Chain Systems, one of the nation's largest group purchasing organizations. The contract, which became effective April 1, 2009, offers MedAssets' hospital and health system customers the ability to improve financial performance by reducing costs associated with their transportation and freight expenses.

TRIOSE will offer MedAssets' GPO members construction logistics services including: transportation services, warehousing and storage, project management, secure data disposal, as well as inbound freight logistics services. Both TRIOSE's construction logistics and the inbound freight programs offer substantial savings and operations efficiencies for healthcare providers.

"We are excited to have the opportunity to offer our services to MedAssets customers. In today's challenging economy, it is more important than ever for hospitals to cut costs. TRIOSE's Construction and Transportation Management Services offers healthcare providers significant savings plus increased control of the supply chain and actionable data for improved performance and decision making," said Carl Joyner, CEO of TRIOSE.

About TRIOSE

TRIOSE specializes in health care logistics and communication services and is known nationally for its innovative methods of helping clients to reduce costs and drive profitable revenue growth. Clients report cost reductions of more than 25 percent in transportation and freight expenses. For more information visit www.triose.com.
